2023/09 – 2023/10 Ahmedabad, India	Full-Stack Web Developer <i>Codsoft</i>

Projects

•Garvify [🔗](#)

(Spotify clone)

User Interface Design=> In crafting Garvify, meticulous attention was paid to replicating the polished and user-friendly interface synonymous with Spotify. Leveraging HTML for structure and CSS for styling. From the seamless organization of playlists to the fluid responsiveness of player controls, every element was meticulously crafted to offer users a familiar and immersive music streaming experience.

Functionality=> Garvify seamlessly integrates core functionalities akin to Spotify, powered by JavaScript's dynamic capabilities. Users can enjoy uninterrupted music playback effortlessly. The smooth synchronization of audio playback across devices enhances the overall user experience. Through meticulous coding and problem-solving, Garvify delivers a fully functional clone that embodies the essence of Spotify's feature-rich platform.

•Food order process [🔗](#)

(Landing Page)

Website Development Achievement=> Recently built a personal website entirely from scratch using HTML and CSS, showcasing proficiency in front-end web development. Key features include a responsive design ensuring optimal user experience across various devices.

Future Plans=> Looking to expand project capabilities by integrating backend functionalities, demonstrating a commitment to continuous improvement and advancement in web development skills.

Responsive Design=> Seamlessly adapts to various screen sizes for an optimal user experience on desktop, tablet, and mobile!

Skills

C, C++, HTML, CSS, Javascript, Java.

Soft Skills

- Quick Learner
- Problem-solving
- Effective communication
- Leadership
- Team-Work
- Critical thinking
